TECHNICAL DATA SHEET

Slip MFQ-SL801

Product Description

- MFQ-SL801 is an efficient slip agent for film and injection molding applications.
- MFQ-SL801 decreases the COF (coefficient of friction) and improves mold releasing, and in some applications, it could contribute in the anti-blocking effect. Due to slow blooming, it has minimal effect on printing and heat sealing. As per any other Slip additive, excessive additions might affect Corona treatment efficiency for printing.
- MFQ-SL801 contains special anti-oxidants to help processing and final product protection.

General Properties

Forms	• Granule/Pellets
Color	• Natural

Technical Specifications

Carrier Resin	• PE
Thermal Stabilizer	• Yes

ATTENTION

- **Dosage:** 0.5% to 2% film, depending on final application and thickness.
- **Lifetime and Storage:** The best time for usage is 12 months after production. Keep in cool and dry place under shelter for long periods.

* This product packed in PP Woven bag of 25 kg each.
