

# DATA SHEET

## Polyethylene Powder

### Product Description

- MFQ-PCT has developed a standard range of white compound based on polyolefin's. This well- established product range is based on carefully selected premium TiO<sub>2</sub> and calcium carbonate filler with and without any content of fluorescence whitener. This product is designed for use in general purpose film, injection, blowing and calendar. These masterbatches are used at additional levels of 1% to 5% depending on the application, opacity/coloring requirements and thickness of the end products. In addition to the standard range MFQ-PCT has developed many other formulations to suit more specific requirements.

### General Properties

|       |          |
|-------|----------|
| Forms | • Powder |
| Color | • White  |

### Technical Specifications

|                    |        |
|--------------------|--------|
| Carrier Resin      | • LDPE |
| Thermal Stabilizer | • YES  |

### Packing

- **Lifetime and Storage:** Not to exceed 12-18 months. Keep in cool and dry place under shelter for long periods.

\* This product packed in PP Woven bag of 25 kg each
